

# 1999 *Assessment Journal* Index

## Author Index

- Approved property tax legislation for 1998. May/June:35-56.
- Birch, John W., and Mark A. Sunderman. Optimal trimming of appraisal-sales ratios. July/August:25-31.
- Bluestein, Sheldon, Byron Cochrane, and Craig Johnson. Integrating raster images with vector-based parcel maps: Ada County's experience. May/June:41-44.
- Brown, Pamela J. A method for valuing town conservation land. May/June:20-29.
- Brown, William. More facts about the Internet for assessors. January/February:56-58.
- Cochrane, Byron, see Bluestein.
- Eckmann, Joe, see Fournier.
- Figuerola, Roberto R. Modeling the value of location in Regina using GIS and spatial autocorrelation statistics. November/December:29-37.
- Fournier, Keith A., CMS, and Joe Eckmann. GIS subdivision maintenance: Lucas County, Ohio, case study. March/April:21-27.
- German, Jerome C., see Ward.
- Griffen, Thomas G. New York's full-value measurement program. March/April:59-65.
- Guidry, Duane. Publishing intelligent vector parcel maps on the web. September/October:77-78.
- Hagopian, Gregg C. Property-flipping and fraudulent appraisals: The phenomenon and the crackdown. July/August:33-39.
- Hanscom, Wendy. Maine assessors protest proposed tax break for time-shares. May/June:11.
- Hardin, William G. III, Ph.D., and Marvin L. Wolverton, Ph.D. An introduction to the analysis of covariance model using an empirical test of foreclosure status on sale price. January/February:50-55.
- International Association of Assessing Officers. Standard on ratio studies. September/October:23-65.
- Jaconetty, Thomas A. Revitalizing urban brownfields—A national, state, and local effort to reclaim blighted properties. July/August:56-67.
- Johnson, Craig. See Bluestein.
- Malizia, Emil E. Ad valorem appraisals and the reuse of inner-city properties. January/February:18-27.
- Moore, J. George. Mass appraisal of golf courses. July/August:41-48.
- Oates, Wallace E. Local property taxation: An assessment. September/October:67-69.
- Ott, Attiat F. Land taxation and tax reform in the Republic of Estonia. January/February:40-49.
- Pollack, Elliott B. Assessing causation: Don't chart a course by *Charter Appraisal* yet. May/June:57-60.
- Reilly, Robert F. Issues related to the use of stock market data in the appraisal of business assets. May/June:31-34.
- Rickard, Steven D. Do Post Tension Structures in Calgary Experience Stigma? November/December:25-27.
- Shaub, Charles H. Personal property auditing in Tennessee. July/August:68.
- Simonds, Richard R. Clarification of the *ROE* equals  $k_c$  assumption in yield capitalization. November/December:53-55.
- Simonds, Richard R., Ph.D. Yield capitalization is not a declining asset model. May/June:36-40.
- Simonds, Richard R., Ph.D. Accuracy of the yield and direct capitalization methods: A twenty-year empirical study of the electric utility industry. July/August:49-55.
- Strickland, Terry L., CAE. Extracting overall capitalization rates from the market—A review of basic considerations. September/October:17-21.
- Sunderman, Mark A., see Birch.

## **Subject Index**

### **Adaptive Estimation Procedure (Feedback)**

Ward, Richard D., CAE, James R. Weaver, and Jerome C. German. Improving CAMA models using geographic information systems/response surface analysis location factors. January/February:30-38.

### **Adjustments to Sales Prices**

International Association of Assessing Officers. Standard on ratio studies. September/October:23-65.

### **Agricultural Land**

Ott, Attiat F. Land taxation and tax reform in the Republic of Estonia. January/February:40-49.

### **ANOVA/ANCOVA Models**

Hardin, William G. III, Ph.D., and Marvin L. Wolverton, Ph.D. An introduction to the analysis of covariance model using an empirical test of foreclose status on sale price. January/February:50-55.

### **Apartment Buildings**

Hardin, William G. III, Ph.D., and Marvin L. Wolverton, Ph.D. An introduction to the analysis of covariance model using an empirical test of fore-

close status on sale price. January/February:50-55.

### **Appraisal Fraud and Negligence**

Hagopian, Gregg C. Property-flipping and fraudulent appraisals: The phenomenon and the crackdown. July/August:33-39.

Pollack, Elliott B. Assessing causation: Don't chart a course by *Charter Appraisal* yet. May/June:57-60.

### **Assessment Standards**

International Association of Assessing Officers. Standard on ratio studies. September/October:23-65.

### **Band-of-Investment Technique**

Strickland, Terry L., CAE. Extracting overall capitalization rates from the market—A review of basic considerations. September/October:17-21.

### **Brownfields**

Jaconetty, Thomas A. Revitalizing urban brownfields—A national, state, and local effort to reclaim blighted properties. July/August:56-67.

### **Business Assets**

Reilly, Robert F. Issues related to the use of stock market data in the appraisal of business assets. May/June:31-34.

### **Computer-Assisted Mass Appraisal (CAMA)**

Figuroa, Roberto R. Modeling the value of location in Regina using GIS and spatial autocorrelation statistics. November/December:29-37.

Ward, Richard D., CAE, James R. Weaver, and Jerome C. German. Improving CAMA models using geographic informa-

tion systems/response surface analysis location factors. January/February:30-38.

### **Capitalization Rates**

Strickland, Terry L., CAE. Extracting overall capitalization rates from the market—A review of basic considerations. September/October:17-21.

### **Central Business Districts**

Malizia, Emil E. Ad valorem appraisals and the reuse of inner-city properties. January/February:18-27.

### **Classification**

International Association of Assessing Officers. Standard on ratio studies. September/October:23-65.

Ott, Attiat F. Land taxation and tax reform in the Republic of Estonia. January/February:40-49.

### **Commercial Properties**

Hardin, William G. III, Ph.D., and Marvin L. Wolverton, Ph.D. An introduction to the analysis of covariance model using an empirical test of foreclose status on sale price. January/February:50-55.

Malizia, Emil E. Ad valorem appraisals and the reuse of inner-city properties. January/February:18-27.

Moore, J. George. Mass appraisal of golf courses. July/August:41-48.

### **Conservation Land**

Brown, Pamela J. A method for valuing town conservation land. May/June:20-29.

Warren, Charles. Toward environmental valuation. March/April:29-33.

### **Contaminated Property**

Jaconetty, Thomas A. Revitalizing urban brownfields—A national, state, and local effort to reclaim blighted properties. July/August:56–67.

### **Cost Approach**

Malizia, Emil E. Ad valorem appraisals and the reuse of inner-city properties. January/February:18–27.

### **Depreciation**

Rickard, Steven D. Do Post Tension Structures in Calgary Experience Stigma? November/December:25–27.

### **Direct Capitalization**

Reilly, Robert F. Issues related to the use of stock market data in the appraisal of business assets. May/June:31–34.

Simonds, Richard R., Ph.D. Accuracy of the yield and direct capitalization methods: A twenty-year empirical study of the electric utility industry. July/August:49–55.

Simonds, Richard R., Ph.D. Yield capitalization is not a declining asset model. May/June:36–40.

### **Eastern Europe**

Ott, Attiat F. Land taxation and tax reform in the Republic of Estonia. January/February:40–49.

### **Electric Utility**

Simonds, Richard R., Ph.D. Accuracy of the yield and direct capitalization methods: A twenty-year empirical study of the electric utility industry. July/August: 49–55.

### **Environmental Protection Agency (EPA)**

Jaconetty, Thomas A. Revitalizing urban brownfields—A national, state, and local effort to

reclaim blighted properties. July/August:56–67.

### **Equalization**

Griffen, Thomas G. New York's full-value measurement program. March/April:59–65.

International Association of Assessing Officers. Standard on ratio studies. September/October:23–65.

### **Equity**

International Association of Assessing Officers. Standard on ratio studies. September/October:23–65.

### **Estonia**

Ott, Attiat F. Land taxation and tax reform in the Republic of Estonia. January/February:40–49.

### **Financing Adjustments**

International Association of Assessing Officers. Standard on ratio studies. September/October:23–65.

### **FIRREA**

Pollack, Elliott B. Assessing causation: Don't chart a course by *Charter Appraisal* yet. May/June:57–60.

### **Foreclosed Properties**

Hardin, William G. III, Ph.D., and Marvin L. Wolverton, Ph.D. An introduction to the analysis of covariance model using an empirical test of foreclosure status on sale price. January/February:50–55.

### **Geographic Information Systems (GIS)**

Bluestein, Sheldon, Byron Cochrane, and Craig Johnson. Integrating raster images with vector-based parcel maps: Ada County's experience. May/June:41–44.

Figueroa, Roberto R. Modeling the value of location in Regina using GIS and spatial autocorrelation statistics. November/December:29–37.

Fournier, Keith A., CMS, and Joe Eckmann. GIS subdivision maintenance: Lucas County, Ohio, case study. March/April:21–27.

Guidry, Duane. Publishing intelligent vector parcel maps on the web. September/October: 77–78.

Ward, Richard D., CAE, James R. Weaver, and Jerome C. German. Improving CAMA models Using geographic information systems/response surface analysis location factors. January/February:30–38.

### **Global Positioning Systems (GPS)**

Fournier, Keith A., CMS, and Joe Eckmann. GIS subdivision maintenance: Lucas County, Ohio, case study. March/April:21–27.

### **Golf Courses**

Moore, J. George. Mass appraisal of golf courses. July/August: 41–48.

### **Gordon Dividend Discount Model**

Simonds, Richard R., Ph.D. Yield capitalization is not a declining asset model. May/June:36–40.

### **Highest and Best Use**

Malizia, Emil E. Ad valorem appraisals and the reuse of inner-city properties. January/February:18–27.

### **Income Approach**

Malizia, Emil E. Ad valorem appraisals and the reuse of inner-

city properties. January/February:18-27.

Reilly, Robert F. Issues related to the use of stock market data in the appraisal of business assets. May/June:31-34.

Simonds, Richard R., Ph.D. Accuracy of the yield and direct capitalization methods: A twenty-year empirical study of the electric utility industry. July/August:49-55.

Simonds, Richard R., Ph.D. Yield capitalization is not a declining asset model. May/June:36-40.

Simonds, Richard R. Clarification of the *ROE* equals *k<sub>e</sub>* assumption in yield capitalization. November/December:53-55.

Strickland, Terry L., CAE. Extracting overall capitalization rates from the market—A review of basic considerations. September/October:17-21.

#### **Income-producing Properties**

Hardin, William G. III, Ph.D., and Marvin L. Wolverton, Ph.D. An introduction to the analysis of covariance model using an empirical test of foreclose status on sale price. January/February:50-55.

Malizia, Emil E. Ad valorem appraisals and the reuse of inner-city properties. January/February:18-27.

#### **Inner-City Properties**

Malizia, Emil E. Ad valorem appraisals and the reuse of inner-city properties. January/February:18-27.

#### **Internet**

Brown, William. More facts about the Internet for assessors. January/February:56-58.

Guidry, Duane. Publishing intelligent vector parcel maps on the web. September/October:77-78.

#### **Land Taxation**

Ott, Attiat F. Land taxation and tax reform in the Republic of Estonia. January/February:40-49.

#### **Land Valuation**

Ott, Attiat F. Land taxation and tax reform in the Republic of Estonia. January/February:40-49.

#### **Legislation**

Approved property tax legislation for 1998. May/June:35-56.

Jaconetty, Thomas A. Revitalizing urban brownfields—A national, state, and local effort to reclaim blighted properties. July/August:56-67.

#### **Local Government Finance**

Oates, Wallace E. Local property taxation: An assessment. September/October:67-69.

#### **Location**

Figuerola, Roberto R. Modeling the value of location in Regina using GIS and spatial autocorrelation statistics. November/December:29-37.

Ward, Richard D., CAE, James R. Weaver, and Jerome C. German. Improving CAMA models using geographic information systems/response surface analysis location factors. January/February:30-38.

#### **Location Value Response Surface Analysis**

Figuerola, Roberto R. Modeling the value of location in Regina using GIS and spatial autocorrelation statistics. November/December:29-37.

Ward, Richard D., CAE, James R. Weaver, and Jerome C. Ger-

man. Improving CAMA models Using geographic information systems/response surface analysis location factors. January/February:30-38.

#### **Mapping**

Bluestein, Sheldon, Byron Cochrane, and Craig Johnson. Integrating raster images with vector-based parcel maps: Ada County's experience. May/June:41-44.

Figuerola, Roberto R. Modeling the value of location in Regina using GIS and spatial autocorrelation statistics. November/December:29-37.

Fournier, Keith A., CMS, and Joe Eckmann. GIS subdivision maintenance: Lucas County, Ohio, case study. March/April:21-27.

#### **Mass Appraisal**

International Association of Assessing Officers. Standard on ratio studies. September/October:23-65.

Moore, J. George. Mass appraisal of golf courses. July/August:41-48.

#### **Modeling**

Figuerola, Roberto R. Modeling the value of location in Regina using GIS and spatial autocorrelation statistics. November/December:29-37.

Hardin, William G. III, Ph.D., and Marvin L. Wolverton, Ph.D. An introduction to the analysis of covariance model using an empirical test of foreclose status on sale price. January/February:50-55.

Ward, Richard D., CAE, James R. Weaver, and Jerome C. German. Improving CAMA mod-

els using geographic information systems/response surface analysis location factors. January/February:30-38.

#### **New York State Assessment**

Griffen, Thomas G. New York's full-value measurement program. March/April:59-65.

#### **Nonmarket Transactions**

Hardin, William G. III, Ph.D., and Marvin L. Wolverton, Ph.D. An introduction to the analysis of covariance model using an empirical test of foreclose status on sale price. January/February:50-55.

#### **Outliers**

Birch, John W., and Mark A. Sunderman. Optimal trimming of appraisal-sales ratios. July/August:25-31.
